

## NEED HELP FINDING AN ADDRESS????

Kara located a site that is extremely helpful in determining addresses, particularly when we can't read someone's handwriting. The site is as follows:

<https://www.melissadata.com/lookups/index.htm>

Go to U. S. Addresses:

You can verify any U.S. address and get information on the county, time zone, house of representative member, latitude, longitude, income, home prices and more. [Click here](#) to lookup Canadian addresses.

Enter a Street Address, City & State **OR** Street Address and ZIP Code **OR** ZIP+4 Code **OR** City.

Street Address	<input type="text" value="1120 Reddiston Ct"/>
City	<input type="text" value="Tracy"/>
State	<input type="text" value="CA"/>
ZIP Code	<input type="text" value="95377"/>
<input type="button" value="Submit"/> <input type="button" value="Clear"/>	

The above street address was what I thought was entered on a traffic ticket but some of the letters were unclear. When I submitted this address, the system told me there was no street by that name. However, the system then gave me some other options to assist me in my search for the correct address.

The street name **Reddiston** was not found in the ZIP Code **95377**

[Click here](#) for a list of addresses with street number **1120** in ZIP Code **95377**.

I tried searching for the streets in the zip code that I had and none of the names matched so then, I could read the house number of 1120 so I searched under a list of addresses with that number and zip code and located the correct address which was Reddington.

I have added this address to my favorites.
