For example: 1001 pounds overweight X .03=\$30.03 fine

Second violation within two years - fine is computed at 1 1/2 times the amount indicated in the schedule.

Third violation within two years - fine is computed at 2 times the amount indicated in the schedule.

Fourth and each succeeding violation within two years - fine is computed at 2 1/2 times the amount indicated in the schedule.

Reference: Attorney General's Opinion 81-127.

(Fine schedule computed in 100 pound increments. In-between overweight violations will need to be computed manually.)
