

PROJECT EAGLE

Serving Douglas, Leavenworth, and Wyandotte Counties

Attachment & Biobehavioral Catch-up ABC

Partnering With Families to Improve
Outcomes for Children

The program consists of:

- 10 1-hour sessions with structured topics to assist parents and their child.
- Parents are offered positive feedback during sessions using video clip review and commenting.
- The 10 weeks ends with a celebration and a special DVD video montage of the parent and child's best interactions.

Offered to parents and caregivers with children between the ages of 6-48 months.

ProjectEagleABC@kumc.edu

Outcomes:

- Parents are more sensitive, less intrusive, and more nurturing.
- Parents can stay calm when their children are dysregulated and use calming strategies to help the children calm down
- Children are more secure and have organized attachments with their caregivers.
- Children have better biological and behavioral regulation.

Serving Cheyenne, Rawlins, Decatur, Norton, Phillips, Smith, Sherman, Thomas, Sheridan, Graham, Rooks, Osbourn, Wallace, Logan, Gove, Trego, Ellis, and Russell Counties
