Creating Citepay Wallet Accounts for District Court Fees

Attorney/Financial Administrator

All attorneys in a firm can have access to the one payment account. The payment account must be configured by the user who has the eFiling role of Attorney/Financial Administrator for the firm. There must be at least one attorney/financial administrator for each Organization.

Each law firm **MUST** have one user account that has a role of Attorney/Financial Administrator. This user will have the ability to set up Citepay wallet accounts for the firm and to assign which users within the firm have access to which Citepay wallet accounts. Wallet accounts are the only means of paying court fees for district court filings incurring a fee when a fee waiver is not appropriate. Without a payment method, filings incurring court fees cannot be submitted to district courts.

When signed in as the attorney, go to Admin, Account Settings to find the Wallet to be set up for this organization.
